**DAVID
BRASWELL**
State Senate ★ District 6

Dear Voter:

I want to earn your vote the old-fashioned way: based on my record as your State Senator, a small business owner and former school board member.

Throughout this campaign, I have been repeatedly attacked with false allegations and distortions about my voting record. I refuse to stoop to the level of those that are attacking me. Hopefully, you'll see this as an indication of my character, leadership and my sincere desire to represent you at the state legislature.

I have no interest in beating up a fellow Republican. All that would do is rob the voters of making a truly informed choice in this election and strengthen the Democrats' efforts to win this seat in November.

Our state and our economy face unprecedented challenges. It's going to take serious people with serious ideas to tackle our problems head on and get our great state back on track.

I want to focus on the issues that matter to you. Solving our illegal immigration crisis, strengthening our economy, creating jobs and improving education for our children.

They say in politics that negative campaigning works. Please help me prove them wrong. I humbly ask for your vote by early ballot or at the polls on August 24th.

Sincerely,

David Braswell
State Senator, District 6
